The permanent makeup industry has been rapidly growing, and many aspiring artists are eager to learn the craft. However, language barriers can often impede progress for some students. That's why Elite Permanent Makeup & Training Center has decided to incorporate Spanish classes for our five(Microblading, Powder/Ombre Brows, Lip Blushing, Eyeliner & Paramedical) most popular courses into our curriculum. By doing so, we hope to provide equal opportunities for Spanish-speaking students who are interested in pursuing a career in the field.

Our plan to phase in the new Spanish courses will likely involve a few key steps. First, our bilingual instructor, Yenifer Jung is already fluent in both English and Spanish. She has already developed the new Spanish language curriculum and is responsible for teaching the classes. We will provide Spanish textbooks, guides, and tutorials to help students understand and communicate effectively.

We have assessed the demand for the Spanish language courses among our current and potential students. We have gathered feedback and insights from students who speak Spanish as their first language or prefer to learn in Spanish. In an environment where formal language proficiency or writing exams are not required, there are alternative methods to evaluate Spanish fluency through verbal assessments. Here are two options we will utilize at Elite:

- **Conversational Assessment:** Students engage in a conversation with an evaluator or instructor who will assess their ability to understand and respond appropriately in Spanish. The evaluator may prompt discussions on various topics, allowing them to gauge the student's vocabulary, grammar, fluency, and overall ability to communicate effectively in Spanish.
- **Informal Conversations:** Students may engage in casual discussions with instructors or native Spanish speaking employees. These conversations can be unstructured and cover various topics, allowing the evaluator to gauge the student's conversational skills, vocabulary range, and overall fluency.

Since we have determined the level of interest and demand for the new courses, we are ready to begin to incorporate them into our schedule gradually or on an as-needed basis. We may start with one or two Spanish courses per semester, and gradually increase the number of classes as interest grows. During this process, we will also need to promote the new Spanish courses to our previous and prospective students. We may advertise the courses through social media, email newsletters, or flyers to raise awareness and generate interest(see attachments). Overall, Elite will need to be thoughtful and strategic in phasing in the new Spanish courses. With these efforts, Elite can ensure to meet the needs of our students & hopes to create a more inclusive and diverse learning environment for all students.

CANCELLATION POLICY

If you wish to cancel or reschedule your course, you must provide a written notice to elitepermanentmakeupla@gmail.com at least 7 days before the start date of your course. If you sign up for a course within the 7 day period, you are still subject to the same cancellation policy. If a written notice is not provided within those 7 days, we will refund the course amount minus a deposit of \$250. If you wish to cancel or reschedule your course after the course has begun, your entire course price will be forfeited.

STUDENT'S RIGHT TO CANCEL

You have the right to cancel your agreement for a program of instruction, without any penalty or obligations, through attendance at the first class session or the seventh calendar day after enrollment, whichever is later. After the end of the cancellation period, you also have the right to stop school at any time; and you have the right to receive a pro rata refund if you have completed 60 percent or less of the scheduled days/hours in the current payment period in your program through the last day of attendance. Cancellation may occur when the student provides a written notice of cancellation at the following address: 11961 Santa Monica Blvd., Los Angeles Ca 90025. This can be done by mail or by hand delivery. The written notice of cancellation, if sent by mail, is effective when deposited in the mail properly addressed with proper postage.

The written notice of cancellation need not take any particular form and, however expressed, it is effective if it shows that the student no longer wishes to be bound by the Enrollment Agreement.

If the Enrollment Agreement is canceled the school will refund the student any money he/she paid, less a registration or administration fee not to exceed \$250.00, and less any deduction for equipment not returned in good condition, within 45 days after the notice of cancellation is received.

OUT OF TOWN STUDENTS

Los Angeles has a high cost of living. Expected non institutional costs for students who do not live within commuting distance should be expected. Housing can cost between \$100-\$400 per night depending on individual preference and local availability, and the IRS estimates per diem for meals and incidentals to cost \$66 in Los Angeles. Students should add housing and per diem costs based on the number of days for their chosen programs, in addition to the one cost of health department registration, bloodborne pathogen certificate, and total program cost to have an estimate of total charges for the estimated total charges for their period of attendance.

WITHDRAWAL FROM THE PROGRAM

You may withdraw from the school at any time after the cancellation period and receive a pro rata refund if you have completed 60 percent or less of the scheduled days/hours in the current payment period in your program through the last day of attendance. The refund will be less than the registration or administration fee, not to exceed \$250.00, unless there are any deductions for equipment not returned in good condition, within 45 days of withdrawal. If the student has completed more than 60% of the period of attendance for which the student was charged, the tuition is considered earned and the student will receive no refund.

For the purpose of determining a refund under this section, a student shall be deemed to have withdrawn from a program of instruction when any of the following occurs:

- The student notifies the institution of the student's withdrawal, or as of the date of the student's withdrawal, whichever is later.
- The institution terminates the student's enrollment for failure to maintain satisfactory progress; failure to abide by the rules and regulations of the institution; absences in excess of maximum set forth by the institution; and/or failure to meet financial obligations to the School.
- The student fails to return from a leave of absence.

For the purpose of determining the amount of the refund, the date of the student's withdrawal shall be deemed the last date of recorded attendance.

The amount owed equals the daily charge for the program (total institutional charge, minus non-refundable fees, divided by the number of days/hours in the program), multiplied by the number of days/hours scheduled to attend, prior to withdrawal.

STUDENT TUITION RECOVERY FUND PAYMENT

5 CCR §76215(a) "The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition. You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program."

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 21747 N Market Blvd. Ste 225 Sacramento, CA 95834, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans. To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law. However, no claim can be paid to any student without a social security number or a taxpayer identification number.

PHYSICAL DEMANDS

Prospective students should be aware of the physical demands of an occupation as a Permanent Makeup Artist. Such occupations generally require continued standing and constant use of the upper torso, shoulders, arms, wrist, and hands, upper back and neck, constant sitting which can lead to backaches, and wrist/arm/hand problems. Certain individuals may have allergies and sensitivity to chemical; products used in the profession. A student must be physically capable of performing all required activities conducted at the school. Standing/sitting for prolonged periods of time can be a necessity for beauty education and the professions.

EARNINGS AND OCCUPATIONS

As with any career, the amount of earnings one can obtain in the beauty industry is directly related to the amount of effort one applies to their career. Minimum efforts can result in minimum wage rates, while maximum efforts can lead to much higher levels of compensation. For this reason, EPMTC does not provide specific dollar earnings information. One's ability to earn income in the beauty industry is very dependent upon one's ability to communicate, present oneself professionally, develop great people skills and maintain a positive attitude. EPMTC curriculum is designed to teach students these skills, but the effort students put forth is up to them. PMU artists may earn income through different career choices. Occupations include: Full time PMU artist, Part-time PMU artist, scar specialist, barbers who advance their services to scalp micropigmentation, dentists, estheticians broadening services, nurses broadening services, to name a few. Artists can find employment in salons, spas or dermatologists offices. In addition to the above stated factors, earnings levels can depend on location, tipping habits, competition, self-employment, the company one chooses to work for, or the position held.

HEALTH AND SAFETY

EPMTC follows regulations set forth by Los Angeles Health Department, OSHA, and State Board of Cosmetology.

STUDENT SERVICES

The faculty and staff are available to advise students on any problem which could have an adverse effect on their ability to successfully complete the course. Problems which are beyond the scope of the staff will be handled on a referral basis by various agencies specializing in specific areas. The main objective of EPMTC is to train competent individuals in their field of interest and to assist each student to insure program completion and successful transition into the job market in the field of training. Student services are a vital component in the achievement of these objectives. The services available to students are explained at the orientation meeting.

HOUSING

Elite Permanent Makeup & Training Center does not offer on campus or off campus housing of any kind. The institution does not have dormitory facilities under its control. You may reasonably search through local short-term housing listings (Airbnb, Zillow, and Craigslist) to find housing during the term of your class. We do not condone or support the above housing listings, but merely provide them as examples. We have no responsibility nor assist students to find housing. It is important for visitors to understand that the cost of living in Los Angeles, especially West Los Angeles, is extremely high. Monthly rent for a standard "single" or "studio" in the 2- 5 mile radius near Elite Permanent Makeup Center can be as high \$2000-3000 USD.

DISTANCE EDUCATION

This institution does not offer Distance Education Learning.

A long-term leave of absence may be granted for a reasonable time as warranted by the circumstance. The status of a student upon leave of absence will remain the same as prior to the leave. EPMUTC follows the guidelines established by the Uniformed Services Employment and Reemployment Rights Act (USERRA) regarding military leave.
