FINANCIAL SUPPORT

QUICK GUIDE

HOW DOES THE FINANCIAL SUPPORT PROCESS WORK?

Elite PMU Academy offers a variety of financial support options to students who qualify. We are partnered with EDD (The Employment Development Department) that branches into CalJobs and their represented offices. These offices include AJCC (America's Job Center of California), and Careeronestop. The office in which you will be eligible to receive funds, is the zip code location of your residency. Once you have identified which branch is closest to you, contact the office to inquire about the next steps to receiving financial aid. Provide them with the material guide course details under the Elite PMU Academy Microblading description. From there a case manager will be assigned to you to begin the process.

WHAT DOES THE FINANCIAL SUPPORT COVER?

The financial aid funds cover the cost of the complete Microblading Course as well as the Elite Student Starter Kit that includes the tools to begin your training. Aid is only available to students who are currently unemployed.
